

CarboSen1.000 in Rod Housing

Area of application: Industrial application
Elektronik: accessory
Range of measuring: 0...3.000 ppm CO _e , ideal up to 1.000 ppm
Operating temperature: 630°C (sensor)
Ambient temperature: -40°C...+100°C
Temperature measuring gas: up to 450°C design G
Type no.: CarboSen1.000G – 658R0034

CarboSen10.000 in Rod Housing

Area of application: Industrial application
Elektronik: accessory
Range of measuring: 0...20.000 ppm CO _e , ideal up to 10.000 ppm
Operating temperature: 630°C (sensor)
Ambient temperature: -40°C...+100°C
Temperature measuring gas: up to 150°C design NT up to 450°C design G
Type no.: CarboSen10.000NT – 658R0032 CarboSen10.000G – 658R0033

Default length rod housing: 100 / 250 mm
Other length on request

Accessory

Elektronik for CarboSen (clip and rod housing)

Type no.: 658R0107

Power pack for the electronic's power supply

Type no.: 658R0109

Operating unit for setting the parameters and for
commissioning CarboSen

Type no.: 658R0932

Ambient temperature accessory: -20°C...+60°C
